## Professional Summary

---

Motivated and technically skilled Java Developer Fresher with hands-on experience in Core Java, Spring Boot, RESTful APIs, MySQL, and Hibernate. Adept at designing and developing backend components, building APIs, and integrating databases. Strong understanding of Object-Oriented Programming (OOP), data structures, and software development lifecycle (SDLC).

## Education

---

Master of Computer Application  
Pimpri Chinchwad College Of Pune | 2023

Batchelor of Business Administration Computer Application  
Dr D Y Patil ACS college | 2020

HSC  
N Wadia College Of Pune | 2017

SSC  
Shri Sayajinath Maharaj Vidyalaya | 2014

## Work Experience

---

Java Intern  
StarCentuari Technologies Pvt Ltd | Pune  
6/2023 – 6/2024

- Involvement in gathering full requirements of stories form product.
- Developing backend Api's and critical bug fixes.
- Implements custom Exceptions.
- Writing well designed, reusable, efficient, testable and bug free code

### Key Achievements:

- Played a role in the adoption of coding standards and convention within the development team.
- Contributed to a positive team dynamic, fostering a collaborative and productive work environment.

## Projects

---

### Human Resource Management System

*Java | Spring Boot | MySQL | JWT | REST API | Postman*

- Developed a web-based HRMS with modules for Employee, Payroll, Leave, and Department management
- Implemented secure JWT login, role-based access, and full CRUD operations.
- Created and tested APIs using Postman, integrated with MySQL backend.
- Reduced manual tasks by automating core HR functions using Spring Boot

#### Languages/Technologies Used:

Java, Spring Boot, MySQL, Hibernate, REST API, JWT, Postman, Maven, Microservices

### Cotton Avenue – Cotton Product Store

*Java | Spring Boot | MySQL | JWT | REST API | Postman*

- Designed a responsive front-end using HTML, CSS, and JavaScript.
- Developed REST APIs using Spring Boot for user authentication, product catalog, and order handling.
- Integrated MySQL for backend database management.
- Implemented JWT-based login and role-based access (Admin/User).
- Conducted backend testing using Postman for all API endpoints.

#### Languages/Technologies Used:

Java, Spring Boot, MySQL, HTML, CSS, JavaScript, Postman

## Technical Skills

---

Concepts: OOPs, REST APIs,  
Languages: Java, SQL, HTML, CSS  
Frameworks: Spring Boot, Hibernate  
Databases: MySQL  
Tools: Postman, Git, VS Code.

## Languages

---

English

Marathi

Hindi

## Achievements And Awards

---

IICMR College Represents 2018 and 2020  
Participate Technocase Competition
